

S-Carb®: Lot Numbering System, Feed Grade Rail Cars

The following is a description of the lot numbering system used by Genesis Alkali at its Green River facility for S-Carb® and Feed Grade Bicarb products, packaged in rail cars.

The Lot number for S-Carb® and Feed Grade Bicarb shipped in railcars is the Rail Car #. The shipment will include a unique batch number, assigned by our SAP system and the date of the shipment for further identification purposes.

Read the product Safety Data Sheet (SDS) prior to using the chemical.
